

Dear XYZ,

Thank you for submitting data to the Pixelated Platypus Data Repository. I am in the process of reviewing your submission, and I see that you provided ### information, which is very helpful for understanding the dataset. I have also identified a few missing pieces of information that may help make your data more findable, accessible, interoperable and reusable.

If possible, please provide,

Descriptions for abbreviations used

Funding references: funder name(s), award numbers or other identifiers

Methodological information, specifically details related to imaging:

- Image acquisition: instrument attribution, image acquisition parameters
- Image data: result of image acquisition, or processing of image data, such as,
  - Type
  - Format & compression
  - Dimension extents
  - Size description
  - Pixel/voxel size description
  - Channel information
  - Image processing method
- Study protocols, codebooks or README files generated for this project or dataset
